Biznet Becomes the Number One Provider with the Highest WiFi Internet Speed for Netflix Steaming

Jakarta, Indonesia, January 13, 2021 – Netflix, an online streaming platform, recently released a list of Internet speeds provided by Internet service providers (ISP) in Indonesia, and Biznet successfully becomes the first provider in the list with the highest WiFi internet speed that reaches 3.4 Mbps. This was announced by Netflix through the following site: <https://ispspeedindex.netflix.net/country/indonesia>. This announcement has also become Biznet's achievements as an integrated digital infrastructure company in Indonesia, with a commitment to provide fast and stable WiFi Internet to support the people of Indonesia's digital activities.

"This has been a great achievement for Biznet to be the provider with the highest WiFi Internet speed, according to the list released by Netflix streaming platform, with speeds reaching 3.4 Mbps. I sincerely express my gratitude for all customers who have entrusted their WiFi Internet connection at home to Biznet. Hopefully this achievement can be a motivation for us to continue improving our service quality for all customers. As we all know, the pandemic has changed our lives and a lot of activities have moved to digital, including family entertainment platforms, and one of them is Netflix. Of course, all of these activities require the support of a fast and stable WiFi Internet connection to run smoothly. Therefore Biznet is here, to answer customers' needs during the pandemic and in the digital era, with the best service," said Adi Kusma, President Director Biznet.

The world has been adapting to a new normal lifestyle and adapting to new changes and habits. It includes new ways to spend time at home, one of which is by streaming Netflix that has become one of the highest quality entertainments for families at home. This change continues to motivate Biznet to improve service quality in

order to provide fast and stable WiFi Internet, which will continue to support the people in carrying out digital activities at home. To support this, Biznet also continues to expand its network to more areas in Indonesia, where currently Biznet coverage area has reached more than 110 cities with more than 50,000 KM of Fiber Optic cables spread across the islands of Java, Bali, Sumatra, Batam, Kalimantan and Sulawesi.

Starting 2021, one of Biznet's commitments is also shown by presenting various attractive promos for customers, including Biznet Home Buy 6 Months Free 6 Months Promo that has been running from January 11 to January 25, 2021. Various promo programs launched by Biznet are expected to support the people in Indonesia to remain productive, even though they have to do various activities, online from home.
