

Biznet Cover More Areas in Palembang City

Jakarta - Indonesia, 20 December 2022 – Internet usage in Indonesia keeps growing from year to year. This is certainly inseparable from the development of digital technology, which has changed various activities in Indonesian people, one of them being for people in the city that has the icon of the Ampera Bridge, Palembang City. In this case, Biznet, which has been available in Palembang City since 2014, continues to prove its commitment to building network infrastructure in all areas of Palembang and providing Internet services that can answer the needs of today's people.

"As an integrated digital infrastructure company in Indonesia, Biznet has become one of the parts of the technology development process by providing various services that meet the needs of people, which can support people's performance, creativity, effectiveness, and productivity. Therefore, as a form of Biznet's commitment that we want to bring equitable technological developments throughout Indonesia, one of which is by providing fast and stable Internet services in Palembang City," said Adi Kusma, President Director of Biznet.

As one of the second largest cities in South Sumatra Province, Palembang City has an increasingly diverse community of digital activity with very rapid growth. With the development of technology that moves very quickly, anything can be easily and quickly, which of course must be connected to the Internet. For Palembang City, Biznet network has reached more than **26,000 Homepasses** with a total of more than **50 urban villages** and will continue to expand along with the Biznet network infrastructure development.

Currently, we are also building an underwater fiber optic cable network, called **Biznet Nusantara Cable System-1 (BNCS-1)**. This network will be connected from Anyer (Banten) - Kalianda (Lampung) and Sungsang (South Sumatra) - Muntok (Bangka) along approximately 100 km. The presence of this submarine cable network infrastructure will later provide Internet performance with a much larger *bandwidth* capacity. This is a form of our commitment to reduce the digital divide in Indonesia and support the improvement of future Internet network capacity, one of which is on the island of Sumatra. For more information, please visit biznet.id/Palembang.

In addition to focusing on network expansion, Biznet also built several branch offices in each district, with the following details:

No	Branch Name	Branch Address
1	Branch Banyuasin Sungsang	Jl. Sungsang III Kabupaten Banyuasin, Sumatra Selatan 30971

7	Branch Palembang Sukamaju	Jl. Noerdin Pandji Kota Palembang Sumatra Selatan 30164
8	Branch Palembang Sukodadi	Jl. Sultan Mahmud Badaruddin II Kota Palembang, Sumatra Selatan 30961

In addition to network development in Palembang City, Biznet also comes with a wide selection of Internet service packages specifically designed to support all digital activities that are also supported by the latest technology infrastructure and The New Biznet Fiber network, as follows:

- **Biznet Home** service, is the best WiFi Internet service for residential/apartment segment with connection speeds up to 125 Mbps for upload and download. In addition, Biznet also presents the latest innovations with **Biznet Home Internet OAS** service options that have a bandwidth capacity of up to 20 Mbps with a price of Rp 250,000/month.
- **Biznet Metronet** service, is an Internet service for the SME or startup segment that offers several choices of Internet service packages ranging from 50 to 150 Mbps at a price of Rp 1,150,000/month.
- **Biznet Dedicated Internet service**, which is a dedicated Internet service for large-scale companies or corporations, which offers Internet service packages starting from 60 Mbps. This Internet service has a 24-hour connection to the Global Internet with dedicated bandwidth allocation (1:1), ensuring network performance is always in the best condition at all times.

The presence of the Internet is one that can support effectiveness and efficiency in a city or area. Therefore, Biznet Fiber network infrastructure development in Palembang City will continue until 2023. *"Biznet has received a very positive response from the people of Palembang city since our network was first available. It is this role that makes us continue to expand the Biznet Fiber network in this city, so that more and more people can be connected to our Internet services. We also hope that Biznet's presence in Palembang City can provide the best Internet options to provide positive and beneficial things for the community to build this city for the better,"* concluded Adi.
