

PRESS RELEASE

## Biznet Supports People to Make Everything Come True through Campaign #IniBarulInternetRumah

**Jakarta, Indonesia, 5 April 2023** – In the digital era, where people have changes in activities and lifestyles that cannot be separated from technology and the Internet. And now the role of technology, digital and the Internet increasingly dominates society in carrying out various activities. To deal with all the changes, Biznet as an integrated digital infrastructure company in Indonesia, also motivates the younger generation, their families, and all Indonesians people to develop the potential to be more productive and creative while at home.

Therefore, Biznet already has a wide selection of WiFi Internet service packages for people's needs, one of which is Biznet Home service for houses and apartments, presenting the #IniBarulInternetRumah campaign. Through this campaign, it is one of Biznet's seriousness to support people for digital activities, that starting from home can also make everything come true. And seeing the younger generation who currently cannot be separated from the Internet connection to

channel their hobbies such as creating video content uploaded to social media, playing games, opening an online business, to streaming videos where these activities require good quality Internet technology for uploading and downloading.

*"Having a strong determination to support digital acceleration in Indonesia with WiFi Internet service, we continue to improve our services by providing large bandwidth, symmetrical upload and download speeds, and wide coverage area because now Biznet continues to expand from cities to areas and regencies throughout Indonesia. Through #IniBarulInternetRumah campaign for the people of Indonesia, in particular, we hope to be a real part to generate creative ideas to create mutual success,"* said Adi Kusma, President Director of Biznet.

To be able to adapt and follow the development of digital changes, which of course requires connectivity and the best WiFi Internet service is the main capital that is able to make everything real. In line with the #IniBarulInternetRumah campaign, which is oriented to inspire people with Biznet Home services. Providing large bandwidth, symmetrical upload downloads, and no FUP (Fair Usage Policy) so that Biznet Home has an unlimited quota that makes all digital activities smoother. This makes Biznet Home service the one-stop best solution for WiFi Internet service for leading people.

Biznet Home is the best WiFi Internet service for houses and apartments with connection speed up to 250 Mbps for download and upload. In addition, Biznet Home also provides various advantages that will provide Internet experience at home. For Biznet Home service information, please visit [biznethome.net](http://biznethome.net).

Here are some of the advantages of Biznet Home services:

- **Large Bandwidth**

**PT. Supra Primatama Nusantara (Biznet)**

MidPlaza 2, 8th Floor. Jl. Jend. Sudirman 10-11. Jakarta 10220 – Indonesia.

P +62-21-57998888 F +62-21-5700580 Call Biznet 1500988 [www.biznetnetworks.com](http://www.biznetnetworks.com)

To meet the needs of today's digital activities, which are widely used to play games, move data or transfer data quickly. Therefore, Biznet provides a large bandwidth capacity for Biznet Home services up to 250 Mbps. With a large bandwidth capacity, it is expected to facilitate and help all customers to continue doing various activities at home, so that they can stay productive and run smoothly.

- **Symmetric Download Upload**

When using the Internet, you usually upload and download things such as uploading videos, files, online meetings, streaming and downloading movies. This certainly requires an Internet network with great speed and 1:1 symmetrical download uploads. Therefore, Biznet Home comes with symmetrical upload and download speeds so that customers can experience upload speeds that are equal or balanced with download speeds that make digital activities smoother.

- **Expansion Wide Coverage Area Indonesia**

Gradually, Biznet continues to build network expansion from city to city throughout Indonesia. Not only in big cities, but also in villages/ small cities so that Biznet Fiber network can be available in the area. Of course, the Biznet Fiber network expansion process also aims to reduce the digital divide so that there is equal distribution of Internet access in Indonesia.

*"With #IniBaruInternetRumah campaign, we hope that more and more Indonesians will be able to enjoy the best WiFi Internet service from Biznet Home at affordable prices and according to their needs. So that the Indonesian people can be the leading people in supporting digital acceleration in Indonesia,"* Adi concluded.
