

PRESS RELEASE

GIO Cloud Receives Payment Card Industry Data Security Standard (PCI DSS) Certification

Jakarta, 20 December 2016 – PT. Biznet GIO Nusantara (Biznet GIO), a joint venture between Biznet and Internet Initiative Japan Inc. (IIJ), officially announced that the company has successfully received Payment Card Industry Data Security Standard (PCI DSS) certification, a global data security standard to avoid fraud by improving control for all credit card data.

As a company that focuses on providing world class service for customers, all Biznet GIO services are supported by the best networks, Data Center, and infrastructure from Biznet, and also supported by one of the leading Cloud Computing service providers in Japan, IIJ. With services designed to provide the best experience for customers, Biznet GIO is committed to always deliver services with 99.9% SLA level.

Biznet GIO's commitment to provide the best service for customers is supported by strategies rolled out by Biznet GIO to continue improving service quality to be delivered to customers, and one of the strategies is by ensuring data security of all customers or companies that provides card processing service including payment gateway, e-commerce, and Internet banking for all customers who develop systems for card holders.

"In line with the current fast growing technology development, especially Internet technology, customers data and information security has become one crucial factor that keeps getting our attention. As a Cloud Computing service provider company that offers Internet-based services, Biznet GIO has a strong commitment to maintain data security of all our customers, and we are delighted to announce that we have officially received PCI DSS certification, which is a global security standard, and it will not only protect customers data, but also company's important data," said Dondy Bappedyanto, CEO of PT. Biznet Gio Nusantara. He also explained that Biznet GIO Cloud is the first Cloud Computing service provider in Indonesia to receive this certification. Having certified by PCI DSS, Biznet GIO is hoped to be able to give the best service for all customers, both corporate and individuals.

PCI DSS is a standard certification for information security, for institutions that run business related to customers information, who are card holders that use cards for many transactions. PCI DSS stands for Payment Card Industry Data Security Standard, which was developed to improve data security of all card holders and to facilitate consistent data security adoption, globally. PCI DSS was initiated by five financial institutions that include American Express, Visa Inc., Master Card, Discover Financial Service and JCB International.
