

PRESS RELEASE

## Biznet is Now Available In More Than 100 Cities in Indonesia

**Jakarta, 8 June 2017** – The increasing demand for most people to have high-quality Internet connection is inevitable. The trend, however, is driven by the availability and development of technology facilities and infrastructure that keep growing. In line with that, Biznet, a company that focuses in telecommunication and multimedia in Indonesia, has the commitment to build modern infrastructure to reduce Indonesia's digital gap with other developing countries.

*“According to a data released by The Indonesian Internet Providers Association (APJII), until 2016, there are approximately 132,7 million people in Indonesia that connect to Internet. The huge and growing number is an opportunity for us as an Internet Service Provider (ISP) to answer people's demand,”* said Adi Kusma, President Director of Biznet Networks.

In 2017, Biznet has built 2,000 KM fiber optic route so total our cable length is 20,000 KM, which cover more than 100 cities in Java, Bali, Sumatera and Batam Islands. Currently we are building and expanding backbone cables in the following cities:

- Semarang – Kudus – Purwodadi – Bojonegoro – Gresik – Surabaya
- Purwokerto – Kebumen – Purworejo – Yogyakarta
- Probolinggo – Paiton – Situbondo
- Kepanjen – Lumajang

Biznet is committed to build modern telecommunication infrastructure in Indonesia.

Biznet is currently offering two types of Internet services, for homes/individual segment and also for business/SMB segment, at an affordable price, and with several service packages that customers can choose based on their specific requirements. For homes/individual segment, Biznet offers Biznet Home service with service package starting from 25 Mbps at Rp 240.000/month. For business/SMB segment Biznet offers Biznet Metronet service, which is the best solution for startup business. Biznet Metronet service starts from 25 Mbps at Rp 800.000/month.

Biznet also provides Biznet GIO Cloud service that offers Cloud Computing service with the latest technology and supported by flexible infrastructure, which will support companies in Indonesia to grow efficiently and effectively to cope with the current industry development. Biznet GIO Cloud is also the first Cloud Computing company in Indonesia that has been certified with Payment Card Industry Data Security Standard (PCI DSS), which is the standard certification on information security for institutions that runs business involving customers' credit card data in making transactions.

*“We are very delighted to achieve this certification. This means that we are now an acknowledged and trusted company to provide secure facility for catering customers' data. Furthermore, our Cloud Computing services are opened to wide ranging industrial sectors, especially for the financial technology company that requires secured and trusted standard of services. We do hope this certification shall be the motivation and commitment for us to continue improving our services quality to all customers,”* said Dondy Bappedyanto, CEO of Biznet GIO.

Biznet continues to innovate to reach more areas and target market with arranging a series of creative entertainment and fun activities, as well as music performances by well-known Indonesian artists and bands, including Andra & The Backbone, Kotak, Sheila on 7, Armada, and Nidji. Biznet Festival is an event created by Biznet for the Indonesian people. In 2017, Biznet Festival has been held in 4 cities in Indonesia such as Tegal, Sukabumi, Purwokerto, and Batam.
