

# Biznet Launches New Internet Service Packages to Meet the Increasing Demand for Internet Connection

**Jakarta, Indonesia, 13 August 2021** – In order to maximize the use and utilization of Internet connections at home, as of August 1, 2021, Biznet officially launched the latest Biznet Home service package with bigger bandwidth capacity that starts from 85 Mbps with a price of Rp 375,000/month. By launching the new service, Biznet hopes to provide more options of fast and stable Internet services with improved performance to support digital activities at home.

*“The Internet has become a mandatory requirement at home, just like water and electricity supplies, especially since the pandemic started as many activities must be done online at home. This condition however, has encouraged Biznet to continue making new innovations to give better services and providing improved Internet experience for customers, and one of which is by launching the latest Biznet Home service package with bigger bandwidth capacity, which will answer the growing demand, as well as to allow smooth and seamless online activities in the digital era,”* said Adi Kusma, President Director of Biznet.

It is somehow undeniable that the availability of Internet services at home has become a major necessity needed to support digital activities at home, for all family members, especially in the current pandemic condition. Therefore, Biznet, as an integrated digital infrastructure company in Indonesia that provides Internet services, understands that the Internet has been playing an important role in digital transformation. For this reason, the latest Biznet Home service is finally here as a solution to answer the increasing people’s digital demand, to run activities such as work from home and online learning.

Following are the details of the latest service package from Biznet Home:
