

PRESS RELEASE

Biznet Networks Officially Opens Branch Office in Malang

31 August 2012 – As part of our commitment to continue our Fiber Optic network expansion in Indonesia, Biznet Networks is delighted to officially announce the latest technology expansion in East Java, by opening a new branch office in Malang. With the new office opening, people will have the best solution for a reliable Internet connection with over-the-edge quality.

Malang is one of the most favorite travel destinations in East Java. The friendly weather and the rich history of famous kingdoms in Indonesia are some of the most favorite local and international tourist attractions. Biznet sees people in Malang as people who require reliable Internet connection, and Biznet is assuring that the opening of Malang branch office will provide the best solution for Internet and multimedia service. Moreover, Biznet will be launching max3 Internet and Cable TV, which is an Internet and pay TV service with High Definition (HD).

Since first established in the year 2000, Biznet has been growing to become the leading telecommunication and multimedia provider in Indonesia, who has been expanding its Fiber Optic network to several big cities in Indonesia, including Jakarta and surroundings (Bekasi, Depok, Tangerang, Serang), Bandung, Bali, Surabaya, Yogyakarta, and Semarang.

“Based on the significant traffic increase on Internet usage since 2009, we predicted that the demand for Internet will continue to increase in the future, especially in big cities in Indonesia. Along with the rapid growth of information technology and internet, Biznet is committed to continue expanding our Fiber Optic networks in Indonesia, which will be the best solution to meet people’s needs to have a reliable internet connection with high-quality.” Said Adi Kusma, President Director of Biznet Networks.

Nowadays, Internet is used to do many online activities by its users, including sending text, image, and video messages, as well as to access real-time information from all over the world. All those online activities need large bandwidth, especially when people use the Internet to do live streaming, which is now getting more and more popular among Internet users worldwide. Biznet’s Fiber Optic technology will surely become the best solution for all online activities.
