

PRESS RELEASE

Biznet Launches Biznet Fiber Semarang - Surabaya Network

Provides the best Internet and Data Communication services in more cities in Java Island with the newest network from Biznet Fiber Semarang – Kudus – Pati – Purwodadi – Bojonegoro – Lamongan – Gresik – Surabaya

Semarang, 4 December 2017 – Today, Biznet officially launches Biznet Fiber Semarang - Surabaya network, which has been built along *Semarang – Kudus – Purwodadi – Bojonegoro – Lamongan – Gresik – Surabaya* cities. The completion of the new 400 KM route officially added the total of Biznet Fiber Optic cable to 21,000 KM. The new launched network shows Biznet commitment to continue building modern technology infrastructure in Indonesia, not only to support Indonesia to compete with other developed countries in the world, but also to support people's various digital activities.

"We continue making efforts to expand our network, to be able to reach more people who need fast and high-quality Internet connection, to support either business or daily activities. With the availability of Biznet Fiber Semarang - Surabaya network, Biznet surely hopes that more people in Semarang, Kudus, Purwodadi, Bojonegoro, Gresik and Surabaya are now able to benefit from the availability of fast and high-quality Internet service. This new route also increase the reliability of the existing South route thru Semarang – Ungaran – Salatiga – Solo – Sragen – Ngawi – Madiun – Nganjuk – Mojokerto – Krian – Surabaya cities that was built in June 2016," said Adi Kusma, President Director Biznet.

Biznet network is now available in more than 100 cities in Java, Bali, Sumatra and Batam, with an on-going coverage expansion process. The increasing demand for fast and high-quality Internet service inspires and strengthens Biznet's commitment to keep expanding its network coverage to other cities in those four islands. The launch of Biznet Fiber Semarang - Surabaya network will be followed by the launch of other routes that are currently under construction and infrastructure development, such as:

- Biznet Fiber Purwokerto - Kebumen - Purworejo - Yogyakarta route, targeted to be finished by February 2018
- Biznet Fiber Probolinggo - Paiton - Situbondo route, to be finished by February 2018

Adi also added, *"as a technology company that focuses on providing telecommunication and multimedia service in Indonesia, we continue creating innovations in building modern infrastructure to provide the best service for the people of Indonesia. Having the best support from the best infrastructure as well as Biznet Fiber Java Bali and Biznet Fiber Java Bangka Batam Singapore networks that have been launched few years ago, we believe that we can provide the best solution for people who need the best technology service."*

Biznet offers Internet service for retail and business/Small Medium Business (SMB) segment. For business segment, Biznet offers Biznet Metronet, a service that is specially designed to answer SMB or startup needs. Biznet Metronet offers service package that can be chosen based on specific requirements, with bandwidth starting from 25 Mbps at Rp 8000.000/month.
