

PRESS RELEASE

## To Support Work From Home and Online Learning Activities, Biznet Increases Bandwidth Capacity of Biznet Home Services for Free

**Jakarta, Indonesia, March 17, 2020** - To support Work From Home (WFH) and online learning activities, as an integrated digital infrastructure company in Indonesia, Biznet is officially increasing the bandwidth capacity of Biznet Home services for the next 14 days, for free, starting from 16 March – 30 March 30, 2020, specifically for customers in areas that have been covered by The New Biznet Fiber network. Biznet service upgrade is expected to support the people in order to stay productive in carrying out activities from home, which requires a fast and quality Internet connection.

When we are facing a situation where we are required to work from home and carry out online learning activities from home, the availability of high-quality technology has been one of the main requirements. The method of remote working or remote learning is the right answer, because these methods allow us to continue to carrying out obligations in terms of our work and studies by utilizing the existing technology and applications. Therefore, Biznet ensures that all customers of Biznet Home service, which is an ultra fast Internet service for homes and apartments, to be able to keep doing various activities smoothly, by using a reliable Internet connection.

*"By looking at the current conditions, we are committed to support every work from home and online learning activities by providing free bandwidth upgrades to Biznet Home services. We hope that the upgrade of Biznet Home service can facilitate and help all customers of Biznet Home service to keep doing various activities at home, so they can remain productive, and business and learning activities can continue to run smoothly,"* said Adi Kusma, President Director of Biznet.

To maximize work and study activities from home, there are some things that must be prepared in advance. First, prepare a special room for your work or study so you can remain comfortable and productive. Secondly, make sure the supporting work tools such as laptop or computer are available and functioning properly. Third, always maintain the quality of communication with leaders and teams in the office, or with teachers and lecturers. Fourth, draw a line between work and life at home. Give understanding to the family, especially children, and ask them not to disturb while you are working. At last one, make sure your Internet connection at home runs smoothly, so it can support all your work activities while staying at home.

As an integrated digital infrastructure company in Indonesia, Biznet supports Work From Home (WFH) and online learning activities, by upgrading bandwidth capacity for customers of Biznet Home 1B and Biznet Home 2B service, for the next 14 days, for free! The upgrade will be done automatically, and customers will get greater bandwidth capacity effective March 16 - March 30 2020, with the following details:

No	Service	Normal Bandwidth	New Bandwidth
1	Biznet Home 1B (Biznet Home Internet & Biznet Home Combo)	75 Mbps	100 Mbps
2	Biznet Home 2B (Biznet Home Internet & Biznet Home Combo)	150 Mbps	200 Mbps

Work From Home (WFH) and online learning activities certainly need to be supported by the use of technology and applications at the highest level, and it can be done by maximizing communication by email or groups on instant messaging application. Video conference and live streaming video applications can also be useful for meetings with colleagues or clients, or to conduct face-to-face meetings between teachers and students. In addition, now we can also take advantage of Cloud Computing technology that can support us in terms of data management, professionally and effectively with cloud computing services from Biznet Gio Cloud. Today, data management has become one of the most important factors in various industries, and business and education are no exception. Data security is increasingly crucial, so we are required to ensure our data is safe at all times. For more info on cloud computing services, visit [biznetgio.com](http://biznetgio.com).
