

## PRESS RELEASE

## Biznet Network is Now Available in Pontianak

**Jakarta, Indonesia, 29 Oktober 2019** – Biznet is officially announcing network expansion to Pontianak, West Kalimantan. The expansion is done along with the launch of Biznet branch office in Pontianak, located at Ruko Pontianak Mall Blok B No. 24, Jl. Teuku Umar. Biznet, an integrated digital infrastructure company in Indonesia, is providing Internet service for business and retail segment for the people of Pontianak, which is hoped to become the solution for an increasing demand for a fast and high quality Internet to support digital lifestyle. Pontianak is the capital city of West Kalimantan and has become the first city in Kalimantan that has been covered by Biznet network. With the on-going network expansion, it is hoped that Biznet will expand its network to more cities in the island.

*“We have been receiving many requests from the people of Kalimantan to expand our network in many cities in the island, and one the cities is Pontianak. Moreover, we also see that the demand for a high quality Internet is increasing from time to time. So, we are very delighted to announce that our network is finally available in Pontianak and can provide the best solution to support the people in this city. The process of our network expansion is still on-going and we hope that our network can also be present in other cities, not just in Kalimantan but in other islands in Indonesia,”* said Adi Kusma, Biznet President Director.

Not just known as the capital city of West Kalimantan, Pontianak is also known as the city of Khatulistiwa/the Equator because the location of the city is traversed by latitude 00. In the north of Pontianak, in Siantan to be exact, there is a Monument of the Equator, which is one of the main tourist destination in the city. Moreover, Pontianak has a location with direct access to Malaysia, which makes it a huge potential for tourism. Based on the potentials, Biznet believe that the availability of Biznet network in the city will increase the people’s ability to compete and further improve the city’s potential to grow in the future.

*“in line with our commitment to expand our network in more cities and areas in Indonesia, the availability of our network in Pontianak is hoped to support the development of digital technology and the growth of creative economy in the city, which will surely become the motivation for us to continue expanding our network to more cities, providing an integrated digital infrastructure for the people of Indonesia,”* Adi added.

For customers in Pontianak, Biznet is providing super fast Internet service for SMB and startup segment, as well as Internet service for home and apartment segment to be chosen based on requirements.

- **Biznet Dedicated Internet**, an Internet service dedicated for large-scale companies or corporation, which offers Internet service packages starting from 30 Mbps at Rp 6,000,000/month. This service offers 24-hour connection to Global Internet and dedicated bandwidth allocation (1:1), ensuring the most reliable network performance at all times.
- **Biznet Metronet** service, an Internet service for medium-scale companies such as SMB/startups, offering several service packages starting from 50 Mbps at Rp 1,150,000/month.
- **Biznet Home** service, an Internet service for home and apartment segment with price starting from Rp 350,000/month, offering not only Internet service, but also Internet + Cable TV service in High Definition, giving high quality entertainment for the whole member of the family. Soon, Biznet Cable TV service will be upgraded to Biznet IPTV service.

The availability of Biznet service in Pontianak is supported by The New Biznet Fiber that can deliver a more reliable service, with a much bigger capacity compared to the previous technology. The new technology will surely accommodate the increasing demand in the future. Currently the total length of Biznet Fiber Optic network has reached more than 33,000 KM in more than 110 cities in Java, Bali, Sumatra, Batam and Kalimantan. Aside from Pontianak, by end of 2019 Biznet network will also be available in Sulawesi, greeting the people in Manado, which will be followed by other cities.

----

**About Biznet**

Biznet is an integrated digital infrastructure company in Indonesia, provides Internet, Data Center, Cloud Computing and IPTV services. We have a strong commitment to build modern infrastructure to reduce the digital gap between Indonesia and other developing countries.
