

## PRESS RELEASE

# In 2023, Biznet Focuses on Network Expansion for Equalitable Internet Access in Indonesia

**Jakarta, Indonesia, 28 February 2023** – Over the last few years, various activities have switched to digital, which affected the rapid technological developments. In 2022, Biznet has worked and made some efforts to continue providing Internet service and expand Biznet Fiber network to all areas and cities in Indonesia. And in 2023, Biznet will continue the expansion to create the equitable Internet access in Indonesia.

*“In 2022, technological developments have created digitalization and modernization in various industries. In line with this, one of Biznet’s main focuses is reducing the digital gap by equalizing Internet access to continue to support digital transformation in Indonesia. Therefore, we continue to focus on building networks in new cities and areas in Indonesia. The need for a fast and stable Internet service is a motivation for Biznet to meet today’s needs of the people,”* said Adi Kusma, President Director Biznet.

As we all know, in 2022 Biznet presented the latest innovations by increasing the bandwidth capacity for Biznet Home service up to 250 Mbps. Moreover, Biznet continues the expansion to reach cities and regencies in Indonesia, and here are the Biznet’s expansion details in 2022:

This year, more than **85,000 km** The New Biznet Fiber has been installed in **180 cities** in Indonesia.

For information on cities that covered by Biznet’s network, please visit [biznetnetworks.com/bizneturbancities](https://biznetnetworks.com/bizneturbancities).

With the expansion in 2022, Biznet is currently available in more than 180 cities, with more than 85,000 KM of Fiber Optic and 2,000,000 Homepasses across the Java, Sumatra, Bangka, Batam, Kalimantan, Sulawesi, Flores and Timor islands. Biznet also get an increasing number of customers for the business segment by 30% and customers for the housing and apartment segments by 70%.

In 2023, Biznet will continue the expansion, especially on Sumatra Island. This expansion is supported by the construction of an undersea Fiber Optic cable network infrastructure, Biznet Nusantara Cable System, that connects Anyer (Banten) - Kalianda (Lampung) and Sungsang (South Sumatra) - Muntok (Bangka). And it will be continued with the Biznet Fiber network from Bandar Lampung to Banda Aceh. Developing this network certainly can provide inter-

island connectivity with high-speed Internet network capacity for the future, which can encourage the digitalization and modernization of Indonesian people.

To be closer and provide the best service to all customers, Biznet has also launched its newest office, named Biznet Technocenter Surabaya, which is located on Jl. Sumatra No. 120, Gubeng, Surabaya, East Java. In the near future, Biznet will also build Biznet Technocenter in several cities that will be equipped with modern facilities for Biznet employees, which can be a room for the employees to keep up their good work and provide the best service for all customers. Biznet Technocenter Surabaya is also equipped with a Training Center, which is a place to provide training for Biznet employees.

*“We are grateful for the achievements we have given and received for the people of Indonesia. Of course, this achievement could not have been separated from the positive support from Biznet's customers, which has become our motivation to continue to innovate in providing the best service. Therefore, in 2023, let's walk together with strong passion and motivation to build an advanced Indonesia. And thank you for the support that has been given for all this time, we hope that we can continue to build an Internet network all around the country and provide the best Internet service,” said Adi.*
